What is EtherCAT?

- EtherCAT (Ethernet for Control Automation Technology) is the fastest Industrial Ethernet solution that provides industry leading performance, flexibility and cost advantages.

Who should attend?

- These half-day seminars specifically address end users, system integrators, OEMs, product manager, decision makers and device manufacturers to learn about EtherCAT, Industrial Ethernet, Industrie 4.0, IoT and Safety.

Why attend?

- Learn about the benefits and the challenges of Industrial Ethernet
- EtherCAT information days are educational events from the experts
- Explore and understand EtherCAT technology
- Talk with EtherCAT experts face-to-face, and see how EtherCAT can accelerate your application
- Participation is free of charge and you are cordially invited

About ETG

- EtherCAT Technology Group (ETG) – the world's largest Industrial Ethernet & Fieldbus organization with over 5,400 member companies from 65 countries supporting EtherCAT technology

Agenda

Inscription: 9:00
End of seminar: ca. 14:00

Speakers: Fieldbus- and Ethernet-Experts from the EtherCAT Technology Group and supporting ETG company Beckhoff Automation AB.
Note: The order and titles of presentations may vary.

09:00 Inscription, light breakfast, table top exhibition

09:30 From Ethernet to EtherCAT:
Why change a winning team?

10:00 EtherCAT technology highlights,
incl. Safety and EtherCAT P

10:45 EtherCAT adoption rates worldwide:
15+ years of ETG

11:00 Coffee break, table top exhibition, ask the experts

11:30 Installation and diagnosis of EtherCAT networks:
Simple and efficient

11:45 Next-Gen connectivity:
EtherCAT powers the digital transformation

12:00 Local application presentation

12:15 Winning customers with EtherCAT

12:45 Outlook (What's next?):
EtherCAT G + G10

13:00 Light lunch, table top exhibition, ask the experts

BECKHOFF

www.beckhoff.se

Beckhoff implements open automation systems based on PC Control technology. The product range covers Industrial PCs, I/O and Fieldbus Components, Drive Technology and automation software. Products that can be used as separate components or integrated into a complete and seamless control system are available for all industries. The Beckhoff "New Automation Technology" philosophy represents universal and open control and automation solutions that are used worldwide in a wide variety of different applications, ranging from CNC-controlled machine tools to intelligent building automation.
